DIGITAL FILE PREPARATION

We want your graphics to look their best. In order to ensure the best quality of graphics and images from your digital files, and to make file transfers as easy and seamless as possible, please follow these guidelines for submission of your artwork to Graphics Production. If you are unable to provide digital artwork for your signage needs, we are capable of providing you with layout services. Additional fees will apply. Please contact TriCord for details.

| Suitable Formats for artwork and/or logos | |

|--|----------------------------|
| Media | Preferred Format |
| Direct Upload | See info below |
| Email Attachments | Limited to max size of 5MB |
| ALL FONTS MUST BE CONVERTED TO OUTLINES | |

AVOIDING ADDITIONAL COSTS

Files obtained from the Internet (.jpg or .gif) or artwork created in MS Office applications (Word, PowerPoint, Publisher, Excel, etc.) are not suitable for high quality output, and require additional hourly charges. Artwork should be created in a design program at 50-100% of actual size. If you have very large files please contact us for options. To avoid additional costs, please send files using the guidelines below.

.gif @ 400%

.ai / .eps vector @ 400%

VECTOR ARTWORK

For the best quality, artwork should be created in vector format (.ai or vector .eps) Logos/artwork taken from websites are generally .gif files.

These files are not acceptable as they will not print clearly. See Visual

*** All fonts within the artwork need to be converted to outlines.**

High Resolution
(300 dpi)

Low Resolution
(72 dpi)

PDF

Artwork that is created in almost any design program can be saved as or exported to a .pdf. When doing so, the press quality setting must be used and all fonts must be converted to outlines. Artwork must be set to the proper proportions @ 50-100% of final size. Any images in the file must be high resolution and/or a minimum of 150dpi at full size, 300dpi at half size. These steps will ensure good print quality output. See Visual

JPEG

We will accept this file type, but only if it is used to compress a file for ease of sending, the original artwork should be vector based or high resolution 300dpi in order to have the best possible print quality output. See Visual

GRAPHIC FILE UPLOAD INSTRUCTIONS:

1. Submit Booth Graphic Order
2. Zip all files together into one file and name it "Show Name_Booth #_Company Name"
3. Click the link below to upload files - *You will receive a "files uploaded successfully" message when files are done uploading*
